

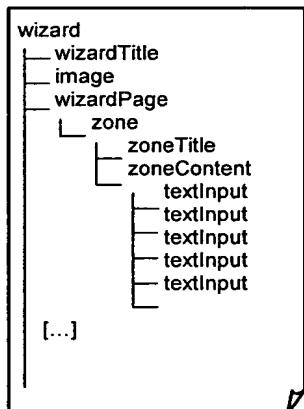

Fig. 1

A screenshot of a 'User Wizard' interface. The title bar says 'User Wizard'. The main area contains a small image of a person at a computer. Text at the top says: 'This wizard creates a user in the system for all the features of the Internet Services (e-mail, web access control, VPN, Intranet web server...).'. Below this is a form titled 'User Identity' with fields for 'First name', 'Last name', 'User name', 'Password', and 'Confirm password'. Each field has a small circular icon to its right. At the bottom are buttons for 'Cancel', 'Next', and 'Finish', and a note: '© Mandatory fields'.
